

THE LINDGREN GROUP
ISO 9001:2008
NADCAP CERTIFIED

Where **QUALITY** Finishes First

About the Lindgren Group

Since 1971, The Lindgren Group has been a recognized leader in the Metal Finishing Industry. Our three facilities, Avtec Finishing Systems, Metco Metal Finishing and Nico Products, offer you the most comprehensive list of options to meet your metal finishing needs. Whether it is chemical finishing, electroplating, mechanical finishing or laser part marking, our production facilities and staff are ready to handle all of your project requirements.

The vision of The Lindgren Group is to provide the very best metal finishing processes and services in the industry. Avtec, Metco and Nico operate under the philosophy of exceeding our customer's expectations all the time, every time. Our operations team and customer support staff are standing by, ready to meet all of your metal finishing needs. Our Sales team is available to assist with project design, finishing specifications and proto-type sampling. We have fully staffed chemistry labs at each facility that monitor the critical process parameters to assure repeatability in all of our production lines. Our Research and Development department is constantly testing new technologies, chemistry and applications, including RoHS compliant finishes.

While continuing to operate separate facilities, Avtec, Metco and Nico provide our customers with virtually all metal finishing and plating services within a single organization. Connected by high-speed data and telecommunication systems, each of the facilities are in constant contact regarding the status of processes and customer orders. The addition of value added services including Abrasive Blasting, Vibratory Deburring, Laser Part Marking, Polishing and Buffing allow our customers the opportunity to reduce total costs and decrease lead times.

As always, we share a concern for our environment. Each facility utilizes the best available technology and equipment to protect our employees and our environment.

Avtec Finishing Systems, Metco Metal Finishing and Nico Products are committed to providing our customers with World Class technology and processes.

We look forward to serving you. It is our mission to serve our customers better than anyone else can serve them

Where **QUALITY** Finishes First

Chemical Finishes

- Anodize Type II Clear and Colors
- Anodize Type III Hard Coat Clear And Colors
- Anodize Bright Dip Clear and Colors
- Anodize Type III Hard Coat w/Teflon
- Black Nickel
- Black Oxide
- Bright Dip on Brass
- Cadmium Free Lead Free Electroless Nickel
- Chromate-Chem Film-Iridite-Alodine
 - Wrought Alloys, Aluminum and Zinc Die Castings
- Citric Acid Passivation
- Electroless Nickel-Medium Phos - High Phos
- Electroless Nickel w/Co-Deposited PTFE Teflon
- Electroless Nickel – High Build >.015
- Electropolish on Stainless Steel
- Passivation – Na Dichromate and 25/45% Nitric Acid
- ROHS Compliant Finishes Including Chromates

Electroplating and Coatings

- Bright Nickel
- Bright Nickel Chrome
- Copper
- Copper Duplex Nickel Chrome
- Copper Electroless Nickel Chrome
- Copper Matte Tin
- Copper Nickel
- Copper Nickel Chrome
- Copper Tin
- Copper Tin Lead
- Decorative Chrome
- Duplex Nickel
- Duplex Nickel Chrome
- Satin Nickel Chrome
- Sulfamate Nickel
- Silver Plating
- Tin, Bright (Acid)
- Tin, Matte ROHS Compliant
- Tin Lead
- Zinc Phosphate
- Zinc, Rack and Barrel (Clear, Yellow, Black, Olive Drab)
- ROHS Compliant Finishes Including Zinc Plating.

Value Added Services

- Abrasive Glass Bead Blasting
- Aluminum Oxide and Sand Blasting
- Tumbling and Vibratory Deburring
- Harperizing, Centrifugal Mass Finishing
- Polishing and Buffing
- Masking
- Packaging
- Assembly
- Baking
- Certifications
- Proto Type Finishing
- Sample Processing
- Ultrasonic Cleaning
- Vapor Degreasing
- Laser Part Marking
- Silk Screening
- Pad Printing
- Mechanical Part Marking
- Federal Fire Arms Licensed
- Dry Film Lubricants
- Nadcap Certified Finishes
